Exploring the Many Skills and Talents of Occupational Therapy

Lou Figueroa, Inspirational Speaker, Train Accident Survivor

Bo Syrotiak, DOR, OTR/L, M.A., M.S.

OTAC’s 2018 Spring Symposium, San Diego
Presentation Outline

1. Thinking Points.
   a. What would you think at the sight of a person with bilateral lower extremity prosthetics at the airport or in the grocery store? What beliefs and bias do you hold?
   b. What do you know about working with people who have undergone amputation?
   c. What do you want to learn from this lecture?

2. Lou Figueroa’s Narrative with Emphasis on Occupational Therapy’s Role in His Recovery.

3. Reset Program and Return to Balance.

4. The Role of Neuroplasticity in the Personal Transformation.

5. The Role of Spirituality in the Rehabilitation Process.

6. Occupational Therapy’s Role during Rehabilitation and Community Reintegration: Exploration of What Went Right and What Went Wrong.

7. Occupational Adaptation (OA) Practice Model and Application in Case Study.
   a. Evaluation and Assessment.
   b. Occupational Profile.
   c. Goal Setting.
   d. Intervention Planning.

8. A Personal Reflection.
   a. What did you learn from this lecture?
   b. Have your beliefs or bias changed?

NOTE: Please bring pen and paper to journal and reflect at various points during the lecture.
